PROFESSIONAL SUMMARY

Summa Cum Laude CS graduate (GWA 3.92/4.00, DLSU-D 2026) and Cisco DevNet Associate with three shipped production-grade systems: a 37-screen enterprise ERP, an AI-powered cross-platform mobile app, and a dual-backend music intelligence platform. Proficient in React 19, TypeScript, Node.js, and PostgreSQL, with applied ML experience across CNN, LSTM, and NLP. Builds for production: database-enforced security, and migration tooling that handles bulk operations without manual intervention.

EDUCATION

De La Salle University – Dasmariñas

Bachelor of Science in Computer Science

Cavite, Philippines

2022 – 2026

- Graduated Summa Cum Laude, GWA 3.92/4.00; ranked Top 3 from General Population, A.Y. 2023–2024
- Relevant Coursework: Machine Learning, Data Structures & Algorithms, Software Engineering, Web Development

EXPERIENCE

Data Solutions Intern

Jun 2025 – Aug 2025

PASIA: Procurement and Supply Institute of Asia | Makati City, Philippines

- Engineered Python automation scripts to consolidate multi-file Excel procurement reports and apply NLP-driven text categorization, replacing a fully manual data-entry workflow and delivering clean, structured datasets ready for downstream analysis without human intervention.
- Trained and deployed a logistic regression classifier on procurement records, advancing the team from manual rule-based sorting to a supervised ML pipeline that categorizes new records at scale without human reconfiguration.

PROJECTS

Expens.io Business: Enterprise Financial Operations & Procurement ERP

2026

React 19, TypeScript, Supabase (PostgreSQL, Auth, RLS), ExcelJS

- Architected a 37-screen enterprise SPA in React 19 and TypeScript backed by Supabase (PostgreSQL) across 61 schema migrations, consolidating 4 legacy Excel workbooks into a unified real-time system covering daily expenses, payroll, project monitoring, and a full procure-to-pay pipeline.
- Enforced 9-role RBAC exclusively through PostgreSQL Row-Level Security and database-level triggers across 8 approval entity types, ensuring financial and inventory data integrity independent of client-side permission logic.

PocketPT: AI-Powered Rehabilitation Assistant

2025

Flutter, Firebase, TensorFlow, Google ML Kit, ONNX Runtime, CNN, LSTM, Python

- Architected a cross-platform Flutter application targeting Android, iOS, and Web, integrating an on-device ONNX CNN model for real-time skeletal landmark extraction, delivering AI-personalized rehabilitation plans without cloud inference dependency.
- Resolved on-device ML jank by offloading ONNX inference to native platform channels, enforcing a 50 MB imageCache ceiling, and instrumenting a SchedulerBinding callback to maintain a sub-16ms frame budget throughout live pose estimation.

MashHub: Music Library Management & Harmonic Matching Platform

2026

React 19, TypeScript, Supabase (PostgreSQL), IndexedDB/Dexie, Fuse.js, Tailwind CSS, Node.js

- Architected a full-stack music library platform in React 19 and Supabase (PostgreSQL) with a normalized section-based relational model, enabling precise harmonic analysis at the individual song-section level across libraries of 10,000+ songs.

LEADERSHIP

Block President → Block Vice President

2022 – 2026

College of Information and Computer Studies, De La Salle University – Dasmariñas

- Served four consecutive years in student governance — elected Block President (2022–2024) then Block Vice President (2024–2026) — representing the CS cohort in faculty and department-level engagements while sustaining a 3.92 GPA throughout.

TECHNICAL SKILLS

Languages: C++, C#, Java, Python, JavaScript, TypeScript, PHP, Dart

Frontend: React 19, Flutter, HTML5, CSS3, Tailwind CSS, Vite, Framer Motion

Backend: .NET, Node.js, Express.js, RESTful API Design, Prisma ORM, PHP

AI / ML: TensorFlow, scikit-learn, NLP, Deep Learning, Computer Vision, Predictive Modeling, Time-Series Analysis

Databases & Cloud: PostgreSQL, Supabase (Auth, RLS, Realtime), MySQL, Firebase, IndexedDB, NoSQL

Tools & Testing: Git, GitHub, Vitest, Playwright, CI/CD, Agile / Scrum, OOP, Data Structures & Algorithms

CERTIFICATIONS

DevNet Associate | Linux Essentials | Introduction to Cybersecurity – Cisco Networking Academy | May 2026

Python for Data Science | Java Programming | Introduction to JavaScript – MyGreatLearning | Sep 2024
